Profile

Full-Stack Developer skilled in **MERN, Next.js, TypeScript, and JavaScript**, with experience building and deploying web applications. Proficient in **REST APIs, authentication, RBAC, database integration, third-party APIs, and Git/GitHub workflows**.

Technical Skills

Frontend: HTML/CSS, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Context API, Zod, TanStack Query, TypeScript, RHF

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB Atlas, Mongoose

Tools & Platforms: Git, GitHub, Postman, ClickUp

Experience

Frontend Intern | Healthletic Lifestyle

- Developed and maintained frontend features using **Next.js, TypeScript, React, Tailwind CSS, Zod, etc.**
- Built **reusable and modular UI components** to improve code consistency and maintainability.
- Fixed **frontend bugs**, debugged application issues, and resolved API integration errors to improve application reliability.
- Collaborated with **backend developers and QA** using **Git and GitHub** to implement features and manage code changes in a production codebase.

Projects

Cartify – Full-Stack E-Commerce Platform with Generative AI Chatbot

Live Demo: <https://cartify-ten-eta.vercel.app/>

- Developed a full-stack e-commerce platform with secure user **authentication, Role-Based Access Control (RBAC)**, product management, and complete order workflows.
- Built a responsive product catalog with **search, filtering, sorting, and server-side pagination**.
- Integrated **Stripe Checkout** for secure payments and implemented a robust **admin dashboard** for inventory, order management, and order status tracking.
- Integrated an **AI-powered customer support chatbot** using the **Groq API** to handle real-time, product-specific user queries.
- Technologies:** MERN Stack, Stripe API, Groq API, Cloudinary, Multer, web3Forms, JWT, Joi

KeyVault– Secure Password Manager

Live Demo: <https://key-vault-swart.vercel.app/>

- Built a secure MERN stack password manager with **Zero-Knowledge Architecture**, ensuring encrypted password storage.
- Implemented **AES-256-GCM** encryption and **master-password** vault unlocking with session-based security controls.
- Developed **REST APIs** and **React UI for password management**, including strength analysis using `zxcvbn`.
- Designed secure **authentication** and protected routes with **JWT** and middleware-based access control.
- Technologies:** React.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas, bcrypt, crypto, helmet

Education

Master of Computer Applications (MCA) | Amity University Online

2026 – Present

Bachelor of Computer Applications (BCA) | PDM University

2022 – 2025

Certifications

- Programming in Python** - NPTEL/Swayam MOOC, 2024, Score: 90%
